81%
of users say TrekIT
saves them time

TREKIT ISN'T JUST FOR HANDOFFS:

- >> **Over half** of users surveyed report using TrekIT during rounds, pre-rounds or while taking notes
- >> **55%** of surveyed users report using TrekIT at the point of care
- >> **80%** use TrekIT to help answer patient questions.

USER'S LOVE TREKIT'S INTUITIVE DESIGN AND EASE OF USE:

Mobile access, presentation of laboratory data (fishbone, graphs, etc)

Allows quick access to up-to-date assessments, plans, and to-do lists to understand the thought process of the primary team.

Important clinical and historical information is in one place

How user-friendly it is, how easy it is to see all information and update information quickly!

Centralization of information and documentation, responsiveness of team, universal use (by MD, RN, consultants...)

Best of all, TrekIT is truly interdisciplinary, with nurses (65% of users), attendings (6% of users), residents (18%), and specialty clinicians (11%) collaborating every day.
